

National pollution control day: poster making competition - 2023

The national pollution control day poster-making competition was held on 1st December 2023 at STIST. The theme of the competition was industrial pollution, and it was organized with the aim of raising awareness about environmental pollution caused by industries and advocating for its control and prevention. Participants were encouraged to convey the importance of environmental conservation and the role individuals can play in the effect of pollution through creative expression and artistic interpretation. The competition attracted enthusiastic participation from 15 individuals, including students. After careful deliberation, the judging panel selected the winners. Prizes were awarded to the top entries as recognition for their outstanding contributions towards promoting the impact of pollution and environmental sustainability. The first prize of Rs. 500 was awarded to Lekshmi S Kumar, S1 CE. E-certificates were provided for all participants. A poster making competition was also held on the theme “Industrial Pollution” & a video show was arranged for students which were donated by the Kerala state pollution control board to the college in 2023. The poster contest participation details are as follows:

1. No of entries: 15
2. First prize (Rs. 500): Lekshmi S Kumar, S1 CE
3. Coordinator: Aishwarya Shaji, Asst. Prof. Department of Civil Engineering
